

DHAMANI

Jewels Since 1969

TO WHOMSOEVER IT MAY CONCERN

Mr. Amit Dhamani, Director and CEO of The Dhamani Group of Companies has been invited to represent the Gulf and give a presentation at the 4TH GIA (Gemological Institute of America) International Gemological Symposium at San Diego, California being conducted from 27 August to 29 August 2006.

Creating a presentation to impress such a gathering required somebody with good professional skills. Mr. Ronnie Koshy, a final year student (B.E.[Hons] Computer Science) at BITS Pilani was referred to us by a contact. Though reluctantly at first, the job was entrusted to him. To our surprise and astonishment, Ronnie created a PowerPoint presentation very close to our heart and with a touch of excellent professionalism, imagination and time management.

We wish Ronnie an excellent future and professional success. We have no doubt that he will outshine his peers wherever he goes!

Sincerely

Nasir Al-Hoda
Commercial Co-ordinator
